

ELLWANGEN

Data:
dal 6 al 10
ottobre

Presentato da:
Linda, Giorgia,
Emma, Alessandra
Miriam.

THE CITY

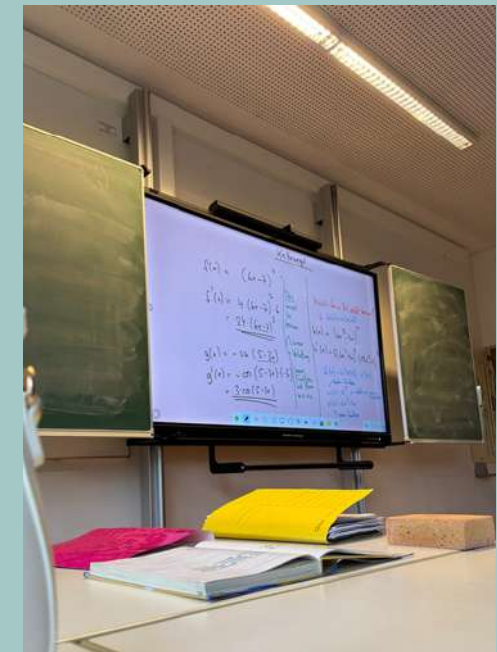

On the second day of our trip we went to the Rathaus and met the mayor of the city. Then we all hung out in the center of Ellwangen and had lunch together.

The school

School was very different in Germany, but we enjoyed it.

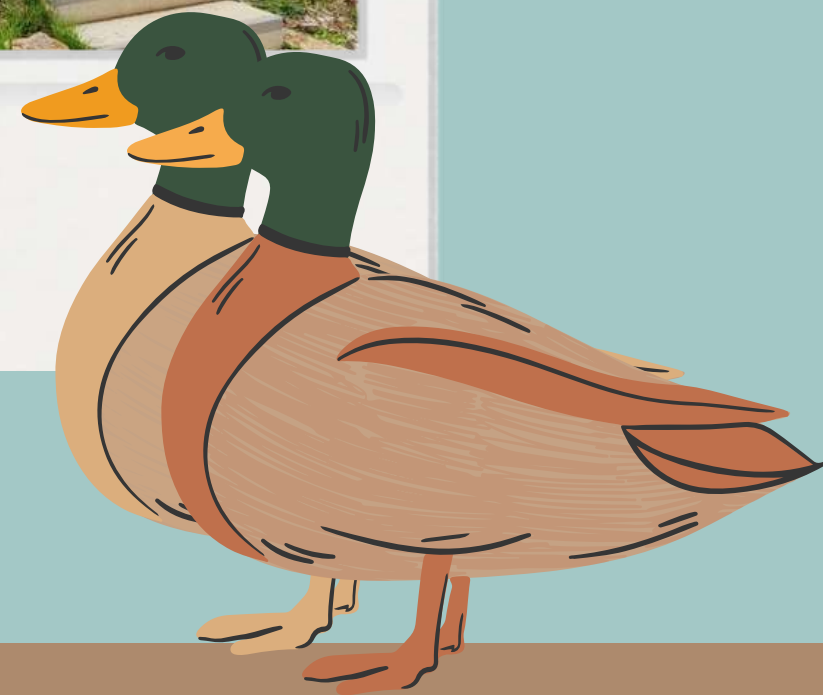

In the school there were high school students, middle school students and elementary school students together in the same building.

THE PARK

The Landesgartenschau

The park was under construction and it will be a park for young people. There's going to be a skate park, a beach volleyball area, a basketball court, they're making the river accessible to swim in.

DAS SCHLOSS

The castle is placed on top of a hill, so we had to climb a thousand stairs.

In the inside garden there is a big tree where students sometimes go to attend lessons.

From the castle you can see the whole city, even the brewery.

The brewery

We went to the brewery
on the fourth day.

There we learned
everything about how
beer is produced and the
benefits it can have on
the body.
